Goes Crazy Over Religion.

Mr. George M. Self, a young farmer of the Ellenboro section, was brought to jail Saturday in a crazed condition. The examining physician says that religious mania is the cause of loss of reason. Mr. Self, who is married, 23 years old, healthy and prosperous, has been attending several religious meetings this summer where the pressure was high. He became possessed of the idea that he had committed an unpardonable sin and a few weeks ago went in the night to the top of Cherry Mountain, near his home, and preached for several hours. On the way to the court Saturday in company with the doctor and other attendants he desired to baptize himself in Broad river. When denied he became violent and came into town with four men holding him.—Rutherfordton Sun.

Poorer Mail Facilities for Brevard After October.

As a result of an experiment in reducing expenses on the part of the government, Transylvania will suffer on account of poorer mail facilities.

The Transylvania division will have pouch mail facilities meaning that only on the two mid day trains will mail be made up on trains as heretofore but will come through from Hendersonville in pouches made up there.—Sylvan Valley News.

Narrow Escape.

As a result of the leap of about 100 feet down the mountain-side Sunday afternoon by the automobile of Dr. Chas. D. Gruver, D. J. Bullock and daughter are in the Mission hospital at Asheville and the nerves of the four occupants of the car are badly upset and the machine almost demolished.

Dr. Gruver and daughter and Mr. Bullock and daughter were on the old Roxaway road about two miles from Rosman in the former's machine. The steering gear failed to properly work and took a sudden leap said to be about 100 feet down the mountain side.

It is considered marvelous that the four occupants were not instantly killed as the car is said to have made a number of somersaults. Dr. Gruver is suffering with only slight bruises and his daughter is said to have escaped injury entirely. Mr. Bullock is suffering with a broken shoulder and thigh and his daughter's face was badly cut and disfigured.—Sylvan Valley News.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

Another Paper Advances Subscription Rate.

Along with nearly every paper in the land The Mountaineer will have to advance its subscription price in self defense. The price of print paper is nearly three times more than it was a few months ago and there seems no chance for an early reduction.

We will begin to charge \$1.50 per year December 1st.—Carolina Mountaineer.

Good Roads.

Good Roads are the great arteries of the country through which flows the life blood of commerce. Good roads open lines of trade and traffic between the people of separated localities. Good roads will help to put energy into your community and to turn loose the energies already there. Good roads will broaden the commercial, industrial and agricultural possibilities of your county. Good roads will stimulate the moral, intellectual and spiritual life of your neighborhood. Good roads—build them—they are worth the price. Marshall News-Herald.

Sallie and Robt. Bryson Get 20 Years Each.

Twenty years in the penitentiary was the sentence imposed upon Sallie Bryson, the fourteen-year-old girl who had pleaded guilty of murder in second degree, for the killing of her mother, Mrs. Alice Bryson, last April. Judge Harding, in passing the sentence, ordered that all the evidence in the case against Robert Bryson be written up and a copy mailed to the governor, and stated that it was his intention to write the governor and request that Sallie be examined by specialists to determine whether she is insane or abnormal in any way, and that if she is, that she be given whatever treatment or operation that may be necessary, and if she is cured that she be granted an immediate pardon; but if she is perfectly normal, that she serve her full term in the state prison.

Judge Harding sentenced Robt. Bryson to twenty years in the penitentiary for being found guilty of being an accessory before the fact. The jury went out on the case at 11 o'clock and returned at 4 with the verdict of guilty of murder in the second degree.

T. D. Bryson for the defense moved that the verdict be set aside on an error of the bill of indictment, the bill being drawn that he was a principal in the fact, the motion overruled by the judge Mr. Bryson was given sixty days in which to prepare an appeal.—Jackson County Journal.

Tangoing With the Stars.

Verily, Mr. Bickett was right when he said the fleecy staple was "tangoing with the stars." Cotton has risen by leaps and bounds and the end is not yet. Mr. H. P. Harrill gathered \$137.20 from a bale on a local market this week, the record price for this section.—Forest City Free Press.

Organizing Gun Club.

Forest City bird hunters are planning the organization of a gun club. The trap and "pigeons" have already arrived and suitable grounds for practice will be secured within a few days. This will be the first organization of its kind in the county and it is designed to afford the boys plenty of amusement.—Forest City Free Press.

SHIPMAN SPOKE AT HAYESVILLE SATURDAY.

Gives Some Interesting Figures on Educational Progress in State and District.

Speaking before a large audience in the court house at Hayesville in Clay county Saturday—Woodrow Wilson Day—M. L. Shipman, commissioner of labor and printing, referred to President Wilson as the greatest chief executive since the days of Washington and Jefferson and predicted his reelection by a flattering vote on November 7.

Reverting to state issues, Mr. Shipman expressed the conviction that the people's business had been managed so wisely and so well, since the democrats resumed control in 1900, there is little probability of a falling off in the democratic majority this year. "The groundless criticisms of F. A. Linney and his apologues," said the speaker, "have been met with facts and figures that can not be impeached. They started out to audit the state treasurer's books, but abandoned the idea because numerous investigations previously had found every dollar of the state's money intact. They chased bedbugs from the soldiers' home for a time, but finding the democrats had attended to that the search was abandoned. I believe they are still making objection to our educational system, and a few suggestions bearing upon democratic achievements along this line may not be inappropriate.

Quotes Figures.

"The following figures will be of interest in this connection, and I consider them as of vital importance to all who have the best interests of the state's public schools at heart. They cover the thirteen counties which comprise the Tenth congressional district: 'The average length of the school term in 1900 was seventy-two days. In 1915 it was a fraction over 115 days. Here we have a gain of forty-three and one-half days, or sixty per cent.

"The attendance figures are as significant. The number attending in 1900 was 19,179. In 1915 it had jumped to 32,589, which is an increase of 13,410, or an increase of seventy per cent.

"Now let us see what the different sums of money spent on the children have been in the different periods. 'Last year the teachers of the thirteen counties of the district were paid \$22,887.16. The average amount paid the teachers in 1900 for the ten counties reporting, was \$5,568.12. The increase will be seen to be \$17,019.04. This shows that more than four times as much was paid the teachers in 1915 as was in 1900, or an average of 227 per cent.

"The average monthly salary paid teachers last year was \$40.23. In 1900 it was \$44,781.24. This is five and one-half times as much as in 1900, or an average of 616 per cent.

Educational Progress.

"The educational progress of the district is indicated by the wonderful increase in the value of the school property which today is \$307,733. In 1900 it was \$55,881.76. This is five and

one-half times as much, or an increase of 447 per cent.

"Mr. Linney sheds tears because the boards of education and county superintendents are not elected by the people. I beg to remind him that when his party controlled the legislatures of 1895 and 1897 this matter should have received attention. At that time, rural public school officials were elected by justices of the peace. Instead of conferring this right upon the people, Mr. Linney's party passed an act providing for the election of boards of education by the commissioners of the various counties and for the appointment of school superintendents by clerks to the superior court. I leave you people to say which of the two methods brought the matter closer to the people."

PROMINENT PROGRESSIVE SUPPORTING THE PRESIDENT.

Bainbridge Colby, Progressive candidate for United States Senator in New York, and who twice nominated Roosevelt in Progressive conventions, says:

"As a Progressive, I am supporting President Wilson because he is the foremost progressive in the country today. His record is one of devotion to progressive principles and of extraordinary persistence and success in translating them into law.

"The opposition to the President is sinister and contemptible. It is composed of all the shrill and discordant forces of envy, selfishness, privilege and faction, both alien and native.

"The speeches of Hughes are nothing but calculating evasions. He is trying to play both ends against the middle, and by confining himself to timorous generalities hopes to avoid offense to any section of his motley following, and thus 'keep' the voters 'coming and going.' His insincerity is contrasted with the courage, candor and patriotism of the president whose reelection, I am thankful to say, is assured beyond doubt.

RAILROAD UNION HEADS IN CAMPAIGN FOR WILSON.

Chiefs of the four railroad brotherhoods have sent a personal appeal in the form of a circular letter to their members throughout the country urging them to vote for the re-election of President Wilson. It was announced by G. H. Sines, vice president of the Brotherhood of Railroad Trainmen. The appeal, it was said, was based not only on the ground that President Wilson had obtained legislation favorable to labor generally, but that he had been responsible also for legislation beneficial to the masses of the people.

Mr. Sines, in making the announcement declared this was the first time in the history of the brotherhoods they departed from their "traditional policy of keeping out of politics."

COMMISSIONER'S SALE OF THE J. P. MORGAN LAND.

Under and by virtue of a decree of the Superior Court of Henderson County, the undersigned appointed as commissioners of the court to sell for partition among the widow, Mrs. Josephine Morgan and the several heirs to whom the said lands had been devised by J. P. Morgan in his last devise, the decree of sale having been made by consent of all the parties at interest, we will on Monday, November 13th, 1916, at and before the court house door in said county in Hendersonville, between the hour of 12 o'clock noon, and 3 o'clock p. m., sell to the highest and best bidder or bidders, all of the said Morgan lands at Rugby, near the French Broad River, on the public highway leading from the Captain W. D. Miller Farm to Horse Shoe Station and the Shaw Creek section, the said lands consisting of two lots or tracts, one known as the tract bought by J. P. Morgan from J. P. Johnson, containing 19 acres, more or less, and being in woods or grove—also what is known as the home place, on which is one of the finest building sites in Western North Carolina, also the old dwellings, outbuildings, a most excellent well of water and some outbuildings—the exact number of acres in this tract is not now known to the commissioners, but perhaps is from 60 to 75 acres, the title is well settled and the boundaries well known and the land will be offered for sale in separate lots and as a whole and the bid or bids accepted will be those that aggregate the largest sum.

The terms of sale named in the decree are one-third of the purchase money in cash on the day of sale and the balance in one and two years, with leave for purchasers to pay sooner, if so desired, 6 per cent. interest will be charged on the deferred payments and title made when all the purchase money is paid.

Here is an opportunity to buy a desirable home, or as an investment.

This October 10th, 1916. THOMAS J. RICKMAN ALBERT CANNON Commissioners. 10-12-4tc.
